

Mobile Wi-Fi Hotspots

The Mobile Wi-Fi Hotspots Lending Program at the Dr. Eugene Clark Library offers up to a world of possibilities for our patrons. Enabling patrons to take the Internet home offers a number of unique benefits such as:

- Bridging the Digital Divide
- Lessening the homework gap for children
- Providing internet options to rural areas with poor or no coverage
- Offering connectivity to financially disadvantaged patrons
- Helping individuals with employment opportunities
- Accessing health information, especially for seniors
- Offering connectivity at community wide events
- Allowing individuals living with disabilities the option to access the Internet from the comfort of home.

By loaning out the Internet, just like a book, your Library can provide its patrons with 24/7 access to the Internet. In an increasingly interconnected world, the Internet is vital in day to day life. Offering mobile Wi-Fi hotspot devices to our patrons will help meet their information needs in new and exciting ways. Contact the library for more information.
